2 Activate & set budget

2 settings only

- Click **Activate** (top-right) or **Edit campaign**.
- Duration: Run weekly** — auto-renews, budget resets every Monday or **Run a one-off** — custom dates, stops at expiry or when budget is used.
- Budget:** start with the system-recommended amount — adjustable anytime.
- Cost per click (CPC):** keep **Automatic bidding**.

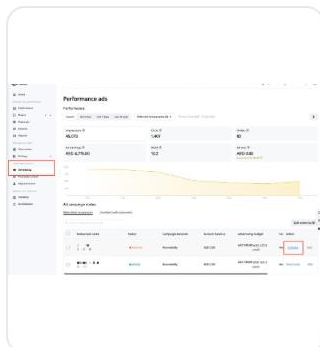

Choose duration → set budget → keep Automatic bidding

3 Save & go live

Instant effect

- Click **Save** — the campaign **takes effect immediately**.
- Your store now ranks higher in the **store list, homepage icons & search**.
- The system tracks performance and tunes CPC automatically — no further action needed.

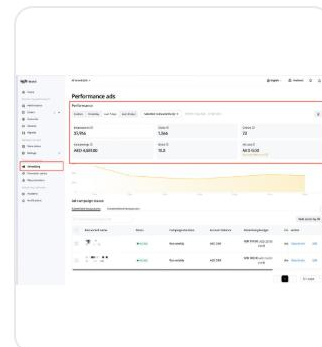

Campaign live: status "Active", budget & duration shown in Campaign settings

4 Track & optimise

Same page, T+1

- On the same Advertising page, check **Impressions · Clicks · Orders · Ad earnings · ROAS · Ad cost** (Yesterday / Last 7 / Last 30 days).
- Data updates **T+1** — today shows yesterday's numbers.
- Cost details: **Financials** → **Balance history** or **Bill download**.

Good to know

⏸ Pause anytime

Edit campaign → deactivate at the bottom of the page. Your ranking returns to organic right away.

💰 Where does budget come from?

No top-up needed — ad costs are deducted directly from your sales. Any unspent budget returns to your withdrawable account as revenue.

🔄 Budget used up?

Delivery pauses automatically and resumes next Monday — or raise the budget anytime to keep running.

🎫 Vouchers

Ad vouchers offset part of the cost — check the coupon page. Auto-renewal is OFF by default.

🌱 New store?

Allow a 2–3 week learning period with platform traffic support; run promotions alongside for a bigger boost.

That's it — your Advertising is live.
